

Annual Engagement Policy Implementation Statement (to 5 April 2021)

Prosper De Mulder Group Pension Scheme

1. Introduction

This Engagement Policy Implementation Statement ('the Statement') sets out how, and the extent to which, the Engagement Policy in the Statement of Investment Principles ('SIP') produced by the Trustees have been followed during the year to 5 April 2021. This statement has been produced in accordance with The Pension Protection Fund (Pensionable Service) and Occupational Pension Schemes (Investment and Disclosure) (Amendment and Modification) Regulations 2018 and the subsequent amendment in The Occupational Pension Schemes (Investment and Disclosure) (Amendment) Regulations 2019, which transposes the EU Shareholder Rights Directive (SRD II) into UK law.

Section 2 of this Statement provides detail of the actions taken by the Trustees to meet the Scheme's engagement policies set out in the SIP over the year. Section 3 describes the voting behaviour on behalf of the Trustees along with the relevant statistics over the year.

Mercer Limited (Mercer) in the UK has been appointed as discretionary investment manager by the Trustees. Pursuant to that appointment, scheme monies are invested in Mercer Funds, which are collective investment vehicles, managed by Mercer Global Investments Europe Limited (MGIE).

2. Policy on ESG, Stewardship and Climate Change

The Scheme's SIP includes the Trustees' policy on Environmental, Social and Governance ('ESG') factors, stewardship and climate change. This policy sets out the Trustees' beliefs on ESG and climate change and the processes followed by the Trustees in relation to voting rights and stewardship.

In order to establish the Trustees' beliefs and produce the policy in the SIP, the Trustees undertook training provided by their investment consultant, Mercer, on responsible investment which covered ESG factors, stewardship, climate change and the approach undertaken by Mercer and MGIE.

As noted in the SIP, the Trustees believe that ESG factors may have a material impact on investment risk and return outcomes, and that good stewardship can create and preserve value for companies and markets as a whole. The Trustees also recognise that long-term sustainability issues, particularly climate change, present risks and opportunities that increasingly may require explicit consideration.

As noted above, the Trustees have appointed Mercer to act as discretionary investment manager in respect of the Scheme's assets and such assets are invested in a range of Mercer Funds managed by MGIE. Asset managers appointed to manage the Mercer Funds are expected to evaluate ESG factors, including climate change considerations, and exercise voting rights and stewardship obligations attached to the investments, in accordance with their own corporate governance policies and current best practice, including the UK Corporate Governance Code and UK Stewardship Code.

The following work was undertaken during the year relating to the Trustees' policy on ESG factors, stewardship and climate change, and sets out how the Trustees' engagement and voting policies were followed and implemented during the year.

Policy Updates

- The Trustees consider how ESG, climate change and stewardship is integrated within the investment processes of Mercer and MGIE, as well as those of the underlying asset managers. Mercer and MGIE have provided reporting to the Trustees on a regular basis.
- The Mercer [Sustainability Policy](#) is reviewed regularly. In August 2020 the Stewardship section was updated to reflect an enhanced approach to monitoring both voting and engagement as well as the Exclusions section to include the implementation of certain exclusions across passive funds from 1 October 2020. In March 2021 there was a further update in relation to sustainability-related disclosures in the financial services sector ("SFDR") implementation.
- In line with the requirements of the EU Shareholder Rights Directive II, Mercer have implemented a standalone [Engagement Policy](#) to specifically address the requirements of the directive.

ESG Rating Review

- ESG ratings assigned by Mercer (and its affiliates') global manager research team, are included in the investment performance reports produced by Mercer on a quarterly basis and reviewed by the Trustees. ESG ratings are reviewed by MGIE during quarterly monitoring processes, with a more comprehensive review performed annually - which seeks evidence of positive momentum on ESG integration. Since Q3 2020 the quarterly performance report has included the Mercer funds overall ESG rating compared to the appropriate universe of strategies in Mercer's global investment manager database.
- As at 31 December 2020 the Trustees noted that 95% of Mercer Funds now have an ESG rating equal to or above their asset class universe, a 10% improvement on 2019.

Update to Exclusions

- As an overarching principle, Mercer and MGIE, as the Trustees discretionary investment manager, prefer an approach of positive engagement rather than negative divestment. However, Mercer and MGIE recognise that there are a number of cases in which investors deem it unacceptable to profit from certain areas and therefore exclusions will be appropriate.
- In addition, Mercer and MGIE monitor for high-severity breaches of the UN Global Compact (UNGC) Principles that relate to human rights, environmental and corruption issues.
